The news relates mainly to the outbreak civil war in Spain. The statement respecting its pfogress and prospects are very conflicting. It would appear that O'Donnell had previously assembled in and around Madrid 18,000 troops the citizens held their ground for 30 hours, but at length gave in and were disarmed, 200 persons were killed in the encounter. At latest supposed to be without the city under arrest. At Barcelona and elsewhere there had been smaller ontbreaks, but they were speedily sup pressed. The Head-quarters of the insuriectionists were at Saragossa, where Espartero's friends had gained a victory over the garrison liberty and the constitution.

The Emperor of France had ordered a French force to assemble on the Spanish frontier as a measure of precaution. Narveaz and other adterents of the ex-Queen Christina were also tastening to the frontier. The latest accounts state that the Cortes had

the whole body, had formed meetings there. Druggist, Toronto; E. W. PALMER, Kingston; Advices from Port Louis, Mauritius, The despatch received at Paris says, when the J. M. The British news is unimportant. Parliament will adjourn about the 30th. The large failures alluded to in the last steamer's news were those of John Munn, cotton broker, Liverpool, Joseph Wright & Co., spinners, Stockport, Low & Law, commission merchants, Manchester, and four other houses; the liabilities were all large and the assets small.
